

		Practice Document #: STS-GEN-007.00 School Bell Times	
Category: General	Document Creation Date: September 2011	Document Last Reviewed: January 2026	Page 1 of 1

Statement	The consortium has been given latitude in the determination of school bell times, and to investigate potential adjustments that will increase system efficiency.
Practice	STSTB has a leading role in evaluating school bell times on an annual basis to assess opportunities for operational and financial efficiencies. As part of the evaluation process, consultation with coterminous boards, bus operators, superintendents and principals is critical for identifying opportunities and operational impact. Consultation with stakeholders addresses the rationale and impact of future changes and facilitates system-wide consensus. See STS-GEN-012 – Route Evaluation Plan (Detailed) for more information.

Student Safety is Our Number One Priority.
